ENTERTAINING AND ENGAGING SPEAKER

- **Common chemicals of concern in the arts**
- **Safer alternatives**
- **Protecting the artist's health & safety**
- **Specific guidelines by attendee interests:**
(Photography, Ceramics, Painting & Drawing, Jewelry
& Metalsmithing, Glass, Printmaking)
- **Proper storage and disposal**

Art materials in most types of media contain toxic ingredients. Using these products can result in health problems. Learn how to protect yourself and your students. Learn proper waste management.

Testimony from 2015 Workshop:

Thank you again for organizing such a fantastic workshop. I was hoping it was going to be worth the 2 hour drive from Brookline and it certainly was! I've been talking about this workshop and what I learned all weekend! I just ordered an eye wash mount for my classroom sink!

*Lynne Ouelette, Hollis Brookline
Middle School Visual Arts Teacher*

Trainer/Speaker:

Dave Waddell,
Waddell Environmental
Seattle, Washington

Other Speaker Agencies:

WorkWISE New Hampshire

Speakers

Dave Waddell—Principal of Waddell Environmental and former Senior Environmental Investigator, Pollution Prevention Inspector, School Laboratory, and Art Chemical Hazards Project Management for King County, Washington Hazardous Waste Management Program. Dave authored the King County Laboratory Waste Management Guide, created and maintains an on-line School Chemicals Database, and created and managed the award-winning “Rehab the Lab” program and the “Hidden Hazards in the Art Studio” program. He consults with schools all over the country.

Melissa Zych—Pollution Prevention Program Manager for the New Hampshire Department of Environmental Services (NHDES). She will provide guidance for public schools.

Teresa Ferrara—Industrial Hygienist working for WorkWISE NH. This is the New Hampshire OSHA Consultation Program run out of Keene State College. She will provide guidance for private schools.

Need Continuing Education Units?

You must provide a description of the program to your school for approval. Visit the registration page for a detailed agenda and speaker biographies. Attendance certifications will be handed out at the end of the workshop. Pre-approval by your school is recommended.
