A registration fee of \$35 includes a light breakfast, lunch, materials, and thumb drive with resources including a model Chemical Safety Plan.

Register on-line at <http://bit.ly/SafeChemistry>

Speakers

Dave Waddell—Principal of Waddell Environmental and former Senior Environmental Investigator, Pollution Prevention Inspector, School Laboratory, and Art Chemical Hazards Project Management for King County, Washington Hazardous Waste Management Program. Dave authored the King County Laboratory Waste Management Guide, created and maintains an on-line School Chemicals Database, and created and managed the award-winning “Rehab the Lab” program.

Melissa Zych—Pollution Prevention Program Manager for the New Hampshire Department of Environmental Services (NHDES). She will provide guidance for public schools.

Teresa Ferrara—Industrial Hygienist working for WorkWISE NH. This is the New Hampshire OSHA Consultation Program run out of Keene State College. She will provide guidance for private schools.

Need Continuing Education Units?

You must provide a description of the program to your school for approval. Visit the registration page for a detailed agenda and speaker biographies. Attendance certifications will be handed out at the end of the workshop. Pre-approval by your school is recommended.
